Coordination of Benefits

If you are covered under a non-FEHB/non-PSHB plan, your BCBS FEP Dental benefits will be coordinated using traditional COB provisions for determining payment. We will coordinate benefit payments with the payment of benefits under other group health benefits coverage (non-FEHB/non-PSHB) you may have and the payment of dental costs under no-fault insurance that pays benefits without regard to fault. Please see the following examples that assume all deductibles have been met and annual maximums have not been reached.
